ORGANIZATIONAL SELF-ASSESSMENT
ORGANIZATIONAL SELF-ASSESSMENT

Why Should I Use This Tool?
Because unequal opportunities and racial inequity are deeply embedded and usually not intended, producing equitable opportunities, operations and results requires being intentional.

What Will the Tool Accomplish?
It raises organizational awareness, starts focused conversations, contributes to the development of equity action plans, and tracks organizational change. Organizations that care about these issues can produce early results by using this tool.

FINALLY: Use the chart below to see what your next steps should be.

RACIAL EQUITY SCORE

< 20

Become intentional
Make an emphasis on racially equitable results explicit in your unit/organization’s mission statement, and evaluate performance with this emphasis as a criterion.

20-29

Build staff/organizational capacity
If fewer points are in the area of Staff Competencies, identify opportunities for staff to better understand embedded racial inequities—how they are produced and maintained, and how they can be eliminated.

If fewer points are in the area of organizational operations, identify policies and procedures that should be improved to promote racially equitable results.

30-39

Fine-tune staff/organizational capacity
See which items are scored lowest, and work on them.

40-49

Mentor others!
Because one unit’s or organization’s success in promoting opportunity for all and reducing disparities is likely to be tied to others’ performance, use what you’ve learned to help advance a racial equity approach for critical partners.

TOOLS THAT CAN HELP

- Every tool in this Toolkit can help your organization become more intentional in its commitment to opportunity for all. But you may want to start with How to Talk About Race to decide NOW to talk about the issues. Sometimes organizations do not have intentional efforts to produce equity because they get stuck on debates related to language instead of action. You should also review the Race Matters PowerPoint to understand how becoming intentional changes the work you do.

- Staff competencies can be built using the Race Matters PowerPoint, What’s Race Got to Do with It?, and the Fact Sheets. Organizational operations can be improved with the Racial Equity Impact Analysis and System Reform Strategies.

- Select relevant tools from the Toolkit based on the areas that need fine-tuning. To help you select the right tools, the Race Matters Users Guide lists every tool and what it will accomplish.

1. Thanks to Ralph Rayner and Dineh Meloy for their input.

2. Embedded racial inequities are accumulated advantages for whites and accumulated disadvantages for people of color. These results come from the long-term effects of public policies and institutional practices, the differential perceptions and images of people of color and whites, and the dominant norms and values that privilege one racial group over others.
